

## **Advanced Placement United States History** **Required Summer Reading/Assignments**

### **Required Summer Reading**

York County students enrolled in Advanced Placement United States History for the next school year are required to read (prior to the beginning of school in September) one selection that has been identified by their individual schools.

### **Required Summer Assignments**

York County students enrolled in Advanced Placement United States History for the next school year are required to complete the following two assignments prior to the beginning of school in September:

- 1 Read and outline each of the first three chapters in the AP United States History textbook. Outlines should be word processed/typed and must include adequate detail of concepts and terms discussed in each chapter.
- 2 Read the teacher-selected title from the above list and prepare a 3-5 page critical book analysis on the selection. The analysis must be word processed/typed (double-spaced; 10 or 12 point font; 1-inch margins). Criteria for preparing a critical analysis are attached. The selected book will be discussed when appropriate during the course of study.

**Evaluation: The three outlines, an assessment of Chapters 1-3 during the first two weeks of class, and the critical book analysis will together be weighted as one test grade during the first quarter.**
