Footnote:

(1) Funding for FY20E has been approved and the amount presented represents the current appropriation for approved projects.

(2) The Board of Supervisors approve the School Division CIP based on a total planning allocation for each fiscal year.
The School Board determines which projects are included in each year making sure the totals align within the annual planning allocations.

Description, Scope and Timeline

Funding is requested to construct a new six to eight classroom building addition. Small expansions to the media center and main offices at the front of the school will be included. Cafeteria expansion is also part of this project.

Anticipated Timeline:

Funding - July 2024
A&E Design Complete - May 2025
Invitation for Bids - May 2025
Construction - August 2025 to May 2027

Purpose and Need

Due to increased residential construction and increasing enrollment in several elementary school zones, additional classroom space is needed.

History and Current Status

The building opened in 1965. In 2009 nine classrooms were added to the school to meet increasing enrollment. Continuing residential development and increased enrollment in the lower end of the county is driving the need for an additional six to eight classrooms.

Operating Budget Impacts

The additional square footage will increase utility costs. Additional teaching and maintenance staff will also be required.

Anticipated Performance/Outcome Measures

The additional classrooms will relieve enrollment pressure on existing elementary schools, reduce class sizes and provide a more appropriate learning environment.

Description, Scope and Timeline

Funding is requested to design and construct additional parking between the facilities as well as separate the bus and personal vehicle traffic flows.

Anticipated Timeline:

- Funding - July 2024
- A&E Design Complete - May 2025
- Invitation for Bids - February 2026
- Construction - July 2026 to August 2027

Purpose and Need

The bus and personal vehicle traffic patterns at the school should be separated to increase safety. The volume of vehicular traffic entering the parking lot causes tie ups on Dare Road during arrival and dismissal times. Pedestrian and vehicular traffic is a safety concern. Additional parking space is also needed for meetings, special events and Parks & Recreation activities.

History and Current Status

A study has been done by a retired civil engineer proposing several methods to improve bus and personal vehicle traffic flows. School staff is currently parking on gravel behind Dare Elementary in an attempt to reduce traffic and congestion in the parking lot. Dealing with existing embankments will be a design challenge that will add cost to the project.

Operating Budget Impacts

There will be additional utility and maintenance costs which will be necessary in order to support and maintain the larger parking lot.

Anticipated Performance/Outcome Measures

Additional parking will help relieve traffic congestion and increase safety. Improvements will be consistent with other YCSD parking lots.

Description, Scope and Timeline

Funding is requested for remove and replace the existing HVAC system.

Anticipated Timeline:

Funding - July 2026

A&E Design Complete - March 2025

Invitation for Bids - March 2025

Construction - July 2026 to August 2027

Purpose and Need

The existing system is at the end of its useful life and needs to be replaced.

History and Current Status

The gymnasium addition was built in 1997. The existing HVAC system will be over 27 years old in FY24. It requires continuous maintenance to keep it operational and should be replaced.

Operating Budget Impacts

The new HVAC equipment will be more energy efficient and require less maintenance, thus reducing operating cost.

Anticipated Performance/Outcome Measures

The new system will provide better temperature and humidity control in the gym. Replacement will be consistent with other YCSD HVAC replacements.

Invitation for Bids - February 2022

Construction - June 2022 to August 2022

Purpose and Need

The existing rooftop HVAC units and roof are at the end of useful life and need to be replaced.

History and Current Status

The existing HVAC system consists of roof top mounted equipment. The equipment is at end of its' useful life and need to be replaced. Improvements will be consistent with other YCSD HVAC systems and controls replacements.

Operating Budget Impacts

New HVAC equipment and controls will be more efficient reducing operating cost and will also result in less man hours for maintenance.

Anticipated Performance/Outcome Measures

New equipment and controls will provide better temperature and humidity control and be more energy efficient.

Funding is requested for the design and construction of additional parking areas which are needed.

Anticipated Timeline:

Funding - July 2021, July 2022
A&E Design Complete - May 2022
Invitation for Bids - May 2022
Construction - July 2022 to August 2023

Purpose and Need

The bus and personal vehicle traffic patterns at the school should be separated to increase safety. The volume of vehicular traffic entering the parking lot causes tie ups on Seaford Road during arrival and dismissal times. Pedestrian and vehicular traffic is a safety concern. Additional parking space is also needed for meetings, special events and Parks & Recreation activities.

History and Current Status

As more parents drive their students to school, it is causing increased congestion. More parking and a separate bus loop is needed to relieve congestion and improve traffic flow. A civil engineer will be hired to study the issue and provide a solution which can be implemented to improve safety for both pedestrian and vehicular traffic.

Operating Budget Impacts

There will be additional utility and maintenance costs which will be necessary in order to support and maintain the larger parking lot.

Anticipated Performance/Outcome Measures

Additional parking will relieve congestion and increase safety. Improvements will consistent with other YCSD parking lot improvements.

Description, Scope and Timeline

Funding is requested to design the construction of a new six classroom building addition. Small expansions to the cafeteria and gymnasium will be included.

Anticipated Timeline:

Funding - July 2026

A&E Design Complete - May 2027

Invitation for Bids - May 2027

Construction - July 2027 to August 2028

Purpose and Need

Due to increased residential construction and increasing enrollment in several elementary school zones, additional classroom space is needed.

History and Current Status

The building opened in 1969. In 2016, the school was renovated and ten classrooms and a gymnasium were added to meet increasing enrollment. Continuing residential development and increased enrollment in the school zone is driving the need for an additional six classrooms and other modifications to the core of the existing school.

Operating Budget Impacts

The additional square footage will increase utility costs. Additional teaching and maintenance staff will also be required.

Anticipated Performance/Outcome Measures

The additional classrooms will relieve enrollment pressure on existing elementary schools, reduce elementary class size and provide a more appropriate learning environment.

Description, Scope and Timeline

Funding is requested to design and construct additional parking as well as to separate the bus and personal vehicle traffic patterns.

Anticipated Timeline:

Funding - July 2023, July 2024
A&E Design Complete - May 2024
Invitation for Bids - May 2024
Construction - July 2025 - August 2026

Purpose and Need

The bus and personal vehicle traffic patterns at the school should be separated to increase safety. The volume of vehicular traffic entering the parking lot causes tie ups on West Queens Drive during arrival and dismissal times. Pedestrian and vehicular traffic is a safety concern. Additional parking space is also needed for meetings, special events and Parks & Recreation activities.

History and Current Status

As more parents drive their students to school, it is causing increased congestion at the school. More parking and a separate bus loop is needed to relieve congestion and improve traffic flow. There is a need to hire a civil engineer to study the issue and provide a solution which can be implemented to improve safety for both pedestrian and vehicular traffic.

Operating Budget Impacts

There will be additional utility and maintenance costs which will be necessary in order to support and maintain the larger parking lot.

Anticipated Performance/Outcome Measures

Additional parking will help relieve congestion and increase safety. Improvements are consistent with other YCSD parking lot upgrades.

Description, Scope and Timeline

Funding is requested for the expansion of Queens Lake Middle. Architectural & engineering design will be provided for an eight classroom addition, cafeteria expansion, main office expansion and the creation of a security vestibule. Construction will follow in FY 2024 and 2025.

Anticipated Timeline:

Funding: July 2023, 2024 and 2025

Construction: July 2024 - August 2025

Purpose and Need

Due to increased residential construction and increasing enrollment in the school zone, additional classroom space is needed.

History and Current Status

The school was expanded and renovated in 2004 to meet increasing enrollment. Continuing residential development in the school zone is again driving the need for further classroom expansion as enrollment rises.

Operating Budget Impacts

The additional square footage will increase utility costs. Additional teaching staff will be required and more maintenance staff will be needed to maintain the building.

Anticipated Performance/Outcome Measures

Additional classrooms will relieve pressure, reduce class sizes and provide a better learning and teaching environment. Improvements will be consistent with other YCSD classroom additions.

Description, Scope and Timeline

Funding is requested to remove and replace the existing geothermal water-sourced heat pumps, make-up air units, chiller and building automation controls.

Anticipated Timeline:

Funding - July 2023

A&E Design Complete - March 2024

Invitation for Bids - March 2024

Construction - June 2024 - August 2025

Purpose and Need

The existing geothermal heat pumps and make-up air units are at the end of useful life and need to be replaced. They are designed for operation with R-22 refrigerant which has become obsolete. Repair parts are difficult to obtain resulting in extended down time which impacts indoor air quality within the complex.

History and Current Status

The existing HVAC system, consisting of geothermal heat pumps and make-up air units, was installed in 2000 and will be 24 years old in FY 2024. Equipment is at the end of useful life and needs to be replaced. Improvements will be consistent with other YCSD HVAC system and controls replacements.

Operating Budget Impacts

The new geothermal heat pumps, make-up air units and building automation system will be more efficient reducing operating and repair costs.

Anticipated Performance/Outcome Measures

Better temperature and humidity control will save operating costs through energy efficiency. Improved indoor air quality will contribute to an enhanced learning environment.

Description, Scope and Timeline

Funding is requested for the design and construction of an additional Bruton zone bus parking lot. The construction scope of work will include clearing, grading, paving, fencing, and installing electric gates, security cameras and lighting.

Anticipated Timeline:

Funding - July 2026
A&E Design Complete - April 2027
Invitation for Bids - April 2027
Construction Start - July 2027

Purpose and Need

Many of the buses that serve the Bruton zone park at Magruder Elementary School. This creates parking and safety concerns during school hours, especially during arrivals and dismissals. This also limits parking for after school events (i.e., Open House, Back-to-School Night, other special events, and Parks & Recreation activities).

History and Current Status

By county ordinance, school buses can no longer be parked in residential areas and have been parked at Magruder Elementary School for a number of years.

Operating Budget Impacts

There will be additional utility and maintenance costs.

Anticipated Performance/Outcome Measures

Magruder Elementary Schools' traffic congestion and safety concerns will be significantly improved.

Description, Scope and Timeline:

Funding is requested to convert the existing media center to a twenty-first century collaborative learning space.

Anticipated Timeline:

Funding - April 2021

A&E Design Complete - August 2020

Invitation for Bids - March 2021

Construction - June to August 2021

Purpose and Need

The renovated media center will provide an area for students to gather for individual study and group collaboration. The current media center does not meet the needs of the student population.

History and Current Status

While the existing media center was updated during the 2006 school renovation, it no longer meets the needs of the current student population.

Operating Budget Impacts

Updating the space with LED lighting will reduce operating costs by 50%. Newer electrical wiring and electrical devices will also reduce maintenance costs.

Anticipated Performance/Outcome Measures

The new learning commons will promote collaborative engagement and communication between students.

Timeline:

- Funding - July 2023
- A&E Design Complete - February 2024
- Invitation for Bids - February 2024
- Construction - Summer 2024 & 2025

Purpose and Need

In order to preserve the existing low slope roof integrity, repairing and coating the low slope roof is necessary. A 20 year warranty will be provided following completion.

History and Current Status

The roof was replaced in 2002. In 2023 it will be 21 years old and in need of repair and a protective coating.

Operating Budget Impacts

Repairing the roof and applying the white coating will reduce maintenance and HVAC operating costs.

Anticipated Performance/Outcome Measures

Preventing roof leaks will help prevent humidity issues and stained ceiling tiles, providing a healthy learning environment. The new roof coating will enable HVAC systems to maintain better control of building temperature and humidity.

FY2020 Approved CIP		\$ -	\$ -	\$ -	\$ -	\$ -	\$ -	N/A

Description, Scope and Timeline

Funding is requested to replace the HVAC system and controls. This project will include the removal and replacement of the existing water sourced heat pumps, make-up air units, boilers and cooling towers. A new security vestibule will also be added as part of this project.

Anticipated Timeline:

Funding - July 2023, 2024 & 2025
A&E Design Complete - March 2024
Invitation for Bids - March 2024
Construction - July 2024 to August 2025

Purpose and Need

The existing heat pumps and make-up air units are at the end of useful life and need to be replaced. They are designed for operation with R-22 refrigerant which has become obsolete. Repair parts are difficult to obtain resulting in extended down time which impacts indoor air quality within the building.

History and Current Status

The existing HVAC system was installed in 1998. The equipment will be 26 years old in FY2024. Equipment is at the end of useful life and requires constant repairs. Equipment should be replaced and the planned improvements will be consistent with other YCSD HVAC system replacements.

Operating Budget Impacts

The new HVAC equipment and building automation system controls will be more efficient at reducing operating and repair costs.

Anticipated Performance/Outcome Measures

Better temperature and humidity control will save operating costs through energy efficiency. Improved indoor air quality will contribute to an enhanced learning environment.

Description, Scope and Timeline

Funding is requested to design and construct an additional parking loop and lot will be designed and constructed. The improvements will separate the bus and personal vehicle traffic patterns. This will also provide additional parking for Bailey Field.

Anticipated Timeline:

Funding - July 2023
A&E Design Complete - Feb 2024
Invitation for Bids -Feb 2024
Construction - Summer 2024

Purpose and Need

Additional parking space is needed for both buses and personal vehicles. The bus and personal vehicle traffic flows will be separated to increase safety. Congested parking results in traffic tie ups and is a safety concern for both pedestrian and vehicular traffic.

History and Current Status

As more students drive to school and more parents drive their students to school it is causing increased congestion at the school. More parking and a separate bus loop is needed to relieve congestion and improve traffic flow. Additional parking is needed for events at Bailey Field. A civil engineer needs to be hired to study the issue and provide a solution which can be implemented to improve safety for both pedestrian and vehicular traffic.

Operating Budget Impacts

There will be additional maintenance costs to maintain a larger parking lot and higher utility cost for lighting the increased parking area.

Anticipated Performance/Outcome Measures

Additional parking and separate bus and personal vehicle traffic flows will relieve congestion and increase safety. Improvements are consistent with other YCSD parking lots.

Description, Scope and Timeline

Funding is requested to design and renovate the annex at York high School.

Anticipated Timeline:

Funding - July 2022, July 2023
A&E Design Complete - May 2023
Invitation for Bids - June 2023
Construction - Summer 2023

Purpose and Need

The annex is in poor condition throughout and needs renovation.

History and Current Status

The original building was opened in 1954. The existing building, HVAC systems, plumbing, electrical system and lighting are in poor condition. Windows are single pane with steel frames and no gaskets and need to be replaced.

Operating Budget Impacts

Operating costs should be reduced with the installation of new high efficiency HVAC systems and the replacement of T-12 fluorescent lights with LED.

Anticipated Performance/Outcome Measures

The building will be more comfortable and usable for students and staff. Restrooms will have hot water and be ADA compliant.

Description and Scope									
Funding is requested for the leasing of existing modular classrooms and to install additional units as required by increasing student enrollment.									
Purpose and Need									
Enrollment at multiple elementary schools has exceeded the instructional capacity of each school for the past 3 years. Modular classrooms have been leased and are currently in use at these schools. Due to increased enrollment at several elementary schools and new residential construction, additional modular classrooms are needed.									
History and Current Status									
Additional classroom space will be needed at these schools due to current enrollment and the continuing residential development in both school zones.									
Operating Budget Impacts									
Modular classrooms will bring additional costs to heat, cool and light the building. Funding will be required for additional teaching, support and maintenance staff as well as for operational costs of the new modular classrooms. Additional buses and drivers will also be required to transport students.									
Anticipated Performance/Outcome Measures									
Modular classrooms will relieve enrollment pressure on existing schools, reduce class sizes and provide a better learning environment.

Description, Scope and Timeline

Additional pre-school spaces are needed.

Anticipated Timeline:

Funding - July 2024, July 2025, July 2026

A&E Design Complete - May 2025

Invitation for Bids - May 2025

Construction - June 2025 -August 2026

Purpose and Need

Due to increased residential construction in the school zone and increasing enrollment, additional pre-school space is needed.

History and Current Status

The continuing residential development is driving the need for additional pre-school classroom space.

Operating Budget Impacts

Funding will be required for additional teaching, support and maintenance staff as well as for operational costs. Additional buses and drivers will also be required to transport students.

Anticipated Performance/Outcome Measures

Additional pre-school space will relieve enrollment pressure on existing schools, reduce class sizes and provide a better teaching environment.
