

Continuity of Learning Website

Just a quick reminder that the YCSO Continuity of Learning [website](#) is a valuable resource for our families while buildings are closed. In addition to instructional resources and information, you can find technology and internet support, community resources for meals, mental health and more. We continue to add to this site throughout the closure, so please bookmark it and visit regularly.

School Board Work Session

The next School Board work session will take place on Monday, May 4, beginning at 5 p.m. The meeting will be held virtually and will be open to the public live on the division's [YouTube Channel](#) and YCSO-TV. The agenda for the meeting is now available [online](#).

Teacher Appreciation Week

Join us in celebrating YCSO teachers during Teacher Appreciation Week, May 4-8. For weeks, we've been receiving so many positive messages about how teachers are supporting students and families from afar – but they miss their students!

Let them hear from you and see you. You can help spread some joy by printing and decorating a special Thank You sign to put in a window of your home. We've provided a template to use or you can design your own. We've also got a virtual celebration planned – look for the theme of the day on our social media sites all next week so you can share your comments and pictures.
